PROFESSIONAL EXPERIENCE

ICodeBees Private Limited

Infopark Kochi, India

Junior Software Developer

08/2024 - Present

iCodeBees Private Limited is an IT services and software development company based in Infopark, Kochi, specializing in web and mobile application development, eCommerce platforms, and enterprise solutions.

- Designed and developed scalable, responsive web applications using React.js and Next.js, delivering high-performance user interfaces and an optimized user experience.
- Integrated and managed RESTful APIs, collaborating closely with backend teams to implement robust and maintainable application features.
- Built modular and reusable UI components, improved application performance, and maintained clean, maintainable code following modern frontend development standards and best practices.

Mykare.AI

KSUM Kochi, India

Software Developer Intern

06/2024 - 07/2024

Mykare.AI is a **health-tech startup based in Kochi, Kerala**, founded in **2021**, that provides a technology-driven platform to simplify access to affordable surgical and medical care across India.

- Developed responsive user interfaces using React.js, JavaScript, HTML, and CSS, contributing to healthcare platform features.
- Integrated REST APIs and collaborated with backend developers to implement dynamic and scalable application modules.
- Assisted in building reusable UI components and improving frontend performance while following modern web development best practices.

Luminar Technolab

Kochi, India

Software Developer Trainee

07/2023 - 03/2024

Luminar Technolab Pvt. Ltd. is a leading **IT training and software development institute based in Kochi, Kerala**

- Completed hands-on training in MERN Stack Development, working with MongoDB, Express.js, React.js, and Node.js.
- Developed and tested full-stack web application modules while learning REST API development, database integration, and modern JavaScript.

PROJECTS

Perma-Tech Roofing Supply

United States

04/2026- Present

Perma-Tech Roofing Supply is a modern **B2B/B2C e-commerce platform** for roofing materials and construction supplies. I worked on the frontend focusing and building a fast, responsive, and scalable user experience.

- Developed the **Perma-Tech Roofing Supply** e-commerce platform using **Next.js, React.js, TypeScript, Tailwind CSS, and GraphQL**, implementing responsive UI, product management, checkout, and API integrations.

Avumy

United States

01/2025 - Present

Avumy is an **event space and stay booking platform** that allows users to discover and reserve event spaces and accommodations through a seamless online interface.

- Developed the **Avumy event space and stay booking platform** using **Next.js and React.js**,

Darlings of Chelsea

United Kingdom

01/2025 - Present

Darlings of Chelsea is an **eCommerce furniture retail platform** that allows customers to browse, customize, and purchase premium sofas and home furniture online.

- Developed features for the Darlings of Chelsea eCommerce platform using Next.js and React.js to create fast and responsive user interfaces. Integrated Cylindo 3D product visualization for product customization and implemented modular styling using SCSS

JS Sushi

United States

09/2025 - Present

Developed the **JB Sushi restaurant website** with a focus on creating a responsive and visually appealing menu browsing experience. Implemented dynamic menu listings, category-based navigation, product detail pages, and seamless REST API integration while ensuring optimal performance and mobile responsiveness.

- Developed the **JB Sushi restaurant platform** using **Next.js, React.js, Tailwind CSS, and REST APIs**, implementing dynamic menu listings and a responsive user interface.

Pendrive.me

India

03/2026 - Present

Developed **Pendrive**, a **secure cloud-based file management platform** that enables users to upload, organize, share, and manage digital files through an intuitive web interface. Built responsive dashboards, file management modules, and administrative features while integrating REST APIs to deliver a seamless and efficient user experience.

- Developed the Pendrive file management platform using **Next.js, React.js, Tailwind CSS, and REST APIs**, implementing file upload, download, sharing, and management features.

EDUCATION

Don Bosco College , Mannuthy

Thrissur, India

06/2020 - 03/2023

Bachelor of Computer Application
